Slide 2: The Problem

Time Poverty is Real

Professionals are drowning in life admin

28% of the workweek spent on email management

Source: *McKinsey*

4.1 hours/week on scheduling and calendar management

Source: *Doodle*

5+ hours/week on personal life admin

Banking, bills, appointments, groceries

73% of professionals feel overwhelmed by daily tasks

Source: *Gallup*

The Current Solutions Don't Work

Solution	Problem
Human PA	£30-50K/year - too expensive
Siri/Alexa	Can only answer questions, not DO things
ChatGPT	Information only, no action execution
Zapier/IFTTT	Requires technical setup, no intelligence

"I'd pay anything to get 5 hours back per week"

— *Every busy professional*

Slide 3: The Solution

Meet Quinn

The AI Personal Assistant That Actually Does Things

Unlike Siri, Alexa, or ChatGPT, Quinn doesn't just suggest — Quinn EXECUTES.

What Quinn Does For You

Manages your inbox — reads, prioritizes, drafts, and sends emails

Tracks your finances — connects to banks, monitors spending, manages budgets

Handles food — plans meals, creates grocery lists, orders food

Manages your calendar — schedules appointments, sends reminders

Plans travel — researches, compares, and books trips

Makes phone calls — handles hold times, negotiates bills (*coming soon*)

All With Human Oversight

You Request → Quinn Plans → You Approve → Quinn Executes

You stay in control. Quinn does the work.
